0 50 100 m

Île Bonfoin is jointly managed by the Nature Conservancy of Canada and the City of Montreal.

It is destined to be conserved in perpetuity. Securing this site serves to consolidate and increase Montréal's green and blue heritage, advancing the City of Montreal's Politique de protection et de mise en valeur des milieux naturels.

Our mission

Established in 1962, the Nature Conservancy of Canada (NCC) is Québec's leading not-for-profit private land conservation organization.

NCC relies on a network of partners, who share its mission, to conserve remarkable sites with valuable plant and wildlife, thereby safeguarding them for future generations.

Our mission

As a major contributor to the quality of life of Montrealers, the Service des grands parcs, du verdissement et du Mont-Royal's mission is to protect and enhance parks, urban forests and all other spaces that enrich our cultural and natural heritage.
